

Job Title: Surveyor (Drone / Cloud Point / ELD)
Contract Type: Permanent
Salary: Negotiable based on experience
Working Hours: Full Time
Working Pattern: Monday to Friday
Location: Manchester
Start Date: Immediate

About the Role

We are seeking a forward-thinking Surveyor with expertise in drone technology, (ELD), and digital surveying tools to join our team. This role involves using cutting-edge technology to capture accurate site data, produce detailed reports, and support efficient project delivery.

You will work closely with project managers, engineers, and clients to provide precise measurements and innovative solutions that enhance safety, accuracy, and productivity.

Key Responsibilities

- Operate drones for aerial surveys, mapping, and inspections
- Collect and process data using ELD systems and digital surveying software
- Produce accurate topographical surveys, 3D models, and site reports
- Ensure compliance with CAA regulations and company safety protocols
- Maintain and calibrate surveying equipment and drone systems
- Liaise with project teams to integrate survey data into design and planning
- Keep up to date with emerging technologies and best practices in digital surveying

Skills & Experience

- Proven experience in surveying with drones and digital tools
- Knowledge of CAA drone regulations and flight planning
- Proficiency in surveying software (e.g., Pix4D, DroneDeploy, AutoCAD, GIS)
- Strong understanding of data processing and geospatial analysis
- Excellent attention to detail and problem-solving skills
- Ability to work independently and manage multiple projects

Qualifications & Experience

- Degree or equivalent in Surveying, Geomatics, or Civil Engineering – Beneficial.
- CAA Drone Pilot Certification (PfCO or GVC) – essential
- Experience with ELD systems and digital data capture

About You

We're looking for someone who:

- Is passionate about technology and innovation in surveying
- Works methodically and delivers accurate results under pressure
- Communicates clearly and collaborates effectively with project teams
- Is proactive, adaptable, and committed to continuous learning
- Takes pride in using advanced tools to improve efficiency and safety

Why Join Us?

At Starfish Construction, we embrace innovation and invest in the latest technology. In return, you'll enjoy:

- A competitive salary and benefits package
- Opportunities to work on high-profile projects using cutting-edge tech
- Professional development and training in advanced surveying methods
- A collaborative and forward-thinking environment

Salary:

The salary for this position is competitive and negotiable based on experience and qualifications. We are committed to offering a compensation package that reflects the value you bring to our team.

Equality & Inclusion

Starfish 9 Ltd values diversity and promotes equality. We welcome applications from all sections of society and are happy to discuss reasonable adjustments or additional arrangements to support your application.

Please note: Candidates must be eligible to live and work in the UK.
