IMPORTANT NOTICE

RE: Claremont Place – Access to Boiler – Gas Safety Check

Dear Resident's and Leaseholders,

We are carrying out essential checks on the gas boilers within all properties to ensure they are safe, fully operational, and compliant with current regulations to allow for the existing cladding removal works to commence. To complete this work, we require access to your property to carry out testing to confirm the boilers are in good working order.

However, if you currently have a CP12 test certificate in place, then we will not need to check your boiler but we would kindly ask for you to provide a copy to the Starfish team.

Starfish will provide some proposed dates ASAP.

Gas Certificates and any questions should be directed to your Resident Liaison Officer, Amy Butzki using the contact details below.

The Starfish Site Team would like to thank you for your cooperation, and we look forward to delivering a successful project. If you have any queries or require assistance, please feel free to contact your resident liaison officer (Amy Butzki).

Yours sincerely,

Amy Butzki
