

Formal Notice: Temporary Cut-Off of Power

Dear Resident,

As a part of the ongoing improvement works to your building, the **power to the communal area of the UNO Apartments building will be temporarily shut down for approximately 90 minutes on:**

Wednesday 30th of September 2026

We have commenced the installation of the temporary power and water supplies required for the project. To complete the installation of our meter and Residual Current Device (RCD), it is necessary to temporarily isolate the landlord's distribution board.

Power to each apartment WILL NOT be affected by this temporary shutdown. However, the following communal services and facilities will be affected:

- Fire Alarms – **a fire alarm engineer will be on standby to reset**
- Car Park Lights – however, **fire emergency lights will come on during this period.**
- Roller Shutter – **Starfish will open this before the shutdown to maintain access.**
- Lift Operation – **the lift will be out of service during the approximately 90-minute shutdown**, and a lift engineer will be on standby to reset the system
- External Walkway and Building Lights.

This is a mandatory safety measure while external works are ongoing to keep residents and site staff safe.

We would like to reassure residents that the electricity supply to their apartments will remain fully operational throughout the shutdown period

Thank you for your cooperation and understanding. We will continue to keep residents informed as the project progresses.

Should you have any questions, please contact the Resident Liaison Officer directly.

Yours Sincerely,

Michael Morgan Resident Liaison Officer

Starfish Construction
